Charging the headset

Your headset uses a rechargeable battery . You must charge the battery fully before using the headset for the first time .

Warning:Please use the charger just we supply .Other charger can damage the Bluetooth headset .

Notice:Do not use the headset when you charging

Basic operations:

Turning headset on/off

1.Turn on

Press and hold the Multi-functionbutton for 3 seconds, the blue indicator light will flash 3 times quickly , then the headset turns on .

2.Turn off

Press and hold the Multi-function button for 3 seconds ,the red indicator light will flash 5

times quickly ,then the headset turns off.

3.Low battery indication

In the standby station, if the blue indicator turns red and hears the sound of “beep”, this means the battery needs to be charged.

4.Pairing

Pairing will create an encrypted wireless link between your Bluetooth phone and Bluetooth headset.

- 1.Before the pairing , ensure that the headset is off(see turning the headset off).
- 2.Press and hold the Multi-function button for 5 seconds until the indicator light alternately flashes red and blue.
- 3.Set your Bluetooth phone to discover the headset by following your phone’s guide. Typically,the steps involve going to set up, connect or Bluetooth menu on your phone and the selecting the option to discover Bluetooth devices.
- 4.Your phone will find the headset and ask if you want it to pair, select the pairing name ‘N95’,confirm this by pressing the “YES” or “OK”.
- 5.Enter passkey “0000”(four zero) ,then press the “YES” or “OK”

Notice:If you can not finish pairing in 90 seconds from the paring mold starts, the pairing will fail. You need to repeat the steps 1-5.

Automatically connection

After paring successfully with mobile phones, when you use the headset again , the headset will connect to mobile phones automatically after you open your Phone’s Bluetooth and turn the headset on (Pree and hold the Multi-function for 2 seconds, no need to wait

still the light indicator flash red and blue) , just the light indicator flashes blue.

Redialing the last number /ending the call

By shortly double press the Multi-function button, the last number you dialed will be re-dialed. By shortly press Multi-function button once , and you hear the beep, the call will be ended.

Wearing the headset

Wear your headset in your ear .Typically, if there is no barrier between your headset and phone(including some parts of your body) , you can adjust the ear hook to meet your wearing habit.

Answering a call

When you hear the ring tone,press the Multi-function button once ,you can answer the call.

Product maintenance and storage

- 1.Always store the headset with power off.
- 2.Avoid storage at so high or so low temperatures (such as in a hot vehicle or in direct sunlight). These factors can reduce battery life.
- 3.The product is not waterproof . Do not expose the headset to rain or other liquids.
- 4.Please charge fully when you do not use them for a long time . You also need to charge after it reaches 3 months, in order to avoid reducing battery life.

Common troubleshooting

1. Not charging (check if the adapter confirms with this headset's specification , then check if the connection for the adapter is right)
2. Not turning on(you can charge a short time , then try again , do not touch other button when you turn on the headset)
3. No sound making a call(some phone models need to set phone's steps manually : Set →Bluetooth→Pairing and connect N95→Setting→Mobile audio, then click)
